

Principal's Letter

Dear Parents,

I am pleased to share again here the recent development of the school. We are committed to promoting the application of information technology for students' self-learning in this cycle. Apart from deepening students' understanding and application of IT learning, we have also arranged relevant training for parents. A workshop called "IT Fun Day" was held in mid-March. Enthusiastic response was received and nearly half of the parents of the school attended the workshop. Through in-depth explanations by the professional instructor, parents and students successfully created their own personalized e-books. The activity helped parents understand and master the skills of using the students' current learning software (Book Creator) and the skills are to be extended at home.

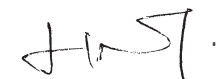

After a public performance at Central Plaza before Christmas, the school choir will perform again at the Hong Kong Flower Show in Victoria Park this Saturday. They will sing a song "Magic Formula" composed by the music therapy instructors of the school. The theme of the lyrics promotes inclusive concept and parents are invited to come together on the day to cheer for the students. In addition, the music therapy instructors are arranging students and our staff members to participate in a recording work. The recorded music CDs will be distributed to all stakeholders to propagate inclusive messages in the community.

In response to the development of information technology, the popularization of mobile phones and the wide application of social media, the school is planning to create a Facebook fan page in order to enable parents and other stakeholders to keep up with the development of the school and to achieve community and public education. School activities and the latest information will be published regularly. The fan page is now in its internal trial phase. Parents are welcome to give advice on the matter and it is expected to commence official operation in the next school year.

The Family Day Luncheon is the annual large-scale activity of the school. It is also a time for current students, alumni, parents and staff members to get together. In view of the increase in non-Chinese speaking students and families in recent years, the event will feature "multiculturalism and inclusive school culture" this year. Through the performances of students and parents, booth games and special cuisines from various countries, participants will learn more about the national culture and features of students of different nationalities. The purpose of building an inclusive culture is to be achieved. I believe we will have a jolly time and hope to see you on 26 May.

Wish you all a happy life!

Yours sincerely,

Mr. Ho Ngau Tin

Principal

The Jockey Club Hong Chi School
